Greco - Pedernera - Migliori

AOFan continuing education was born in Italy in 2019, thanks to the experience of Dr. Gallo, Dr. Greco and Dr. Migliori in the field of Clear Aligners. In the last 4 years more than 20 courses have been organized with the participation of more than 500 colleagues and last summer the first Alumni Meeting had 150 participants gathered in Fano.

For the first time, AOFan opens to our [international friends and colleagues](#) with a brand new course completely in [English](#) and with the extraordinary presence of [Dr. Martin Pedernera](#) who is joining the AOFan family. The location of our first international meeting could only be Rome and we selected an amazing venue to welcome you in the hearth of the Eternal City.

Anyway, for all the colleagues that are not able to reach Italy this summer, we have planned to have also a [Live Streaming of the course online](#).

The course is planned to have one and a half day of lectures about [advanced aligner treatments](#) such as Extraction cases, Impacted canines and the integration of Direct and Indirect TADs with aligners. On Saturday afternoon then we will have something unique, [two hands-on WORKSHOPS](#) where you will have the chance to learn first how precisely plan and perform [Guided TADs placement in the Tuberosity and on the Palate](#) and then how to make [Cantilevers to use with TADs](#) for complex movements .

Friday night you will all be our guests for the [AOFan Italian Dinner](#) in a special place, to experience Rome as the Romans do.

We are looking forward to welcome you in Italy to spend together a wonderful weekend

Alessandro, Martin and Federico

Friday: 09.30 - 18.30
 19.30 **AOFan Dinner**
 Saturday: 09.00 - 16.00

Location

Piazza Barberini - Rome

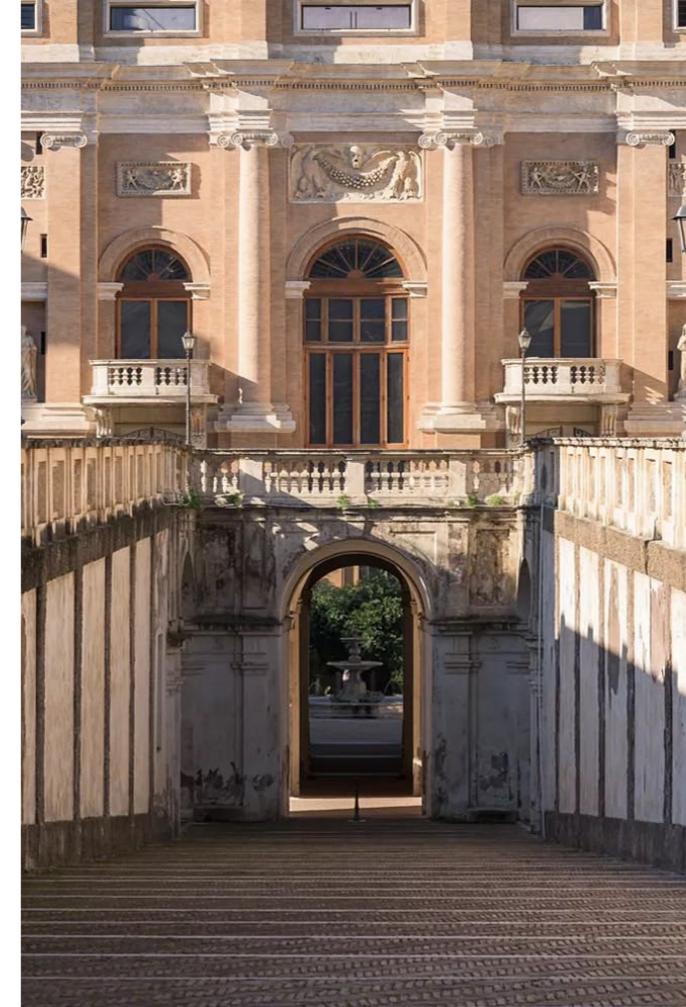

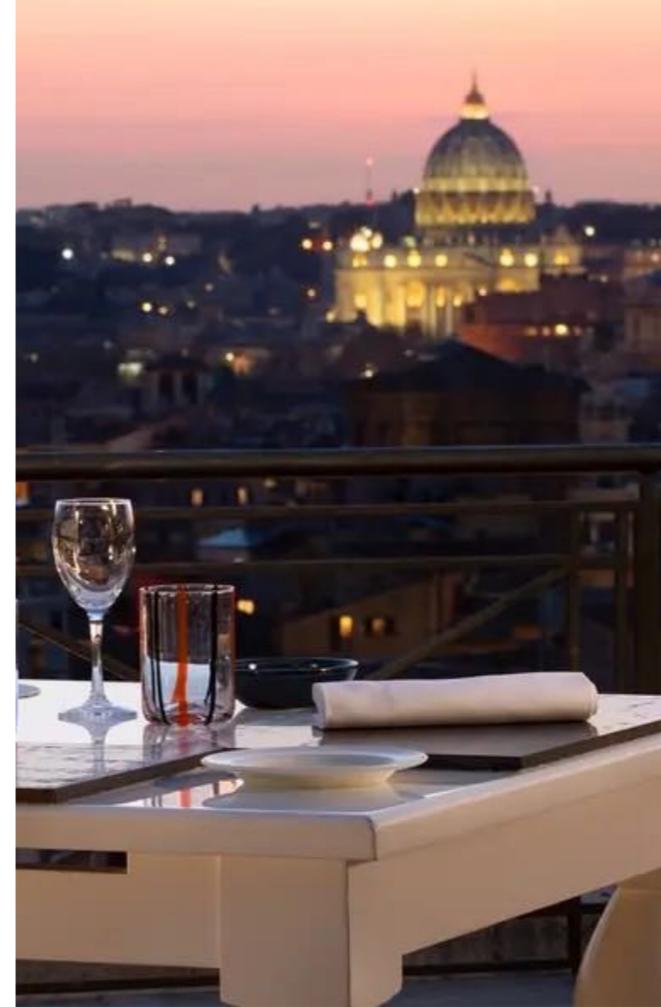

LOCATION

Sina Bernini Bristol - Rome

Delight in the magic of a timeless atmosphere. For over 140 years the Sina Bernini Bristol has been a benchmark for luxury hospitality in the Eternal City.

Located on Quirinal Hill, in the Dolce Vita district, you can discover [one of the most famous squares in the historic center of Rome](#). It takes its name from Palazzo Barberini, home today to one of the city's most important Art Galleries, where works by Raphael and Caravaggio are exhibited.

At the intersection of Via Veneto and Via del Tritone from Piazza Barberini you can start a journey in the discovery of the city, exploring the nearby Trevi district with its famous Fountain, the adjacent Spanish Steps with the Trinità dei Monti district, giving you time for a little shopping in the most famous streets of the capital.
